ABOUT MYSELF

Hi, I am Sudipta Roy Akash, a dynamic and goal-oriented Web & Web App Developer with 6 years of comprehensive experience in website design, web application development, and network & server management. Proven track record of 2 years in freelance and 4 years in professional roles, delivering high-quality solutions through excellent technical skills, effective communication, and a results-driven approach. Skilled in managing complex projects and adept at utilizing the latest tools and technologies to meet project objectives. Passionate about tackling challenges that foster learning and growth in fast-paced environments, with a commitment to continuous improvement and staying current with industry trends.

SKILLS AND ABILITIES

Proficient in website development technologies, including WordPress, HTML, CSS, and Laravel, with hands-on experience in building robust and scalable web applications. Strong knowledge of databases such as MySQL and Firebase, combined with expertise in operating systems like Windows and Linux. Adept in using graphics tools such as Photoshop, Illustrator, and Figma to enhance UI/UX designs. Skilled in multiple programming languages, including C, Java, and PHP, and equipped with sound knowledge of networking protocols and device programming. This diverse technical skillset allows me to deliver innovative solutions tailored to meet complex project requirements.

EXPERIENCE

• Network Operation Centre (NOC) Engineer

March 2024 – Present

Integrated Business Systems & Solutions PVT. Ltd. (IBSS)

- ✓ Monitor and manage network infrastructure and server systems to ensure optimal performance, uptime, and reliability.
- ✓ Proactively identify, troubleshoot, and resolve network and server issues, reducing downtime and maintaining service continuity.
- ✓ Collaborate with cross-functional teams to support network architecture and ensure seamless integration of new systems.
- ✓ Perform routine maintenance, updates, and patching for servers and networks, enhancing security and performance.
- ✓ Analyze network traffic and server logs to optimize performance and ensure efficient resource allocation.

• Web Developer & Graphics Designer

June, 2020 – December, 2023

China Bangladesh Friendship Centre Limited, China

- ✓ Designed and developed dynamic, responsive websites and web applications using HTML, CSS, JavaScript, PHP, and MySQL, improving user experience and engagement.
- ✓ Created visually appealing graphics, layouts, and multimedia content, enhancing brand identity and user interfaces.
- ✓ Collaborated with cross-functional teams to gather requirements, develop project plans, and deliver customized web solutions on time.

• Chief Technology Officer (CTO)

September, 2018 – December, 2020

Youth Village (Startup Initiative)

Led the technical strategy for an educational information portal startup, overseeing platform design, development, and deployment. Managed a team of developers using WordPress, HTML, CSS, and Laravel. Handled database management (MySQL, Firebase) and ensured server and network optimization. Collaborated with teams to align technology solutions with business objectives, driving innovation and project success
